(256) 890-0000 [fax]

Director of Contracts: Ms. Terri Rushing (256) 890-8098  
Email: [terri.rushing@baesystems.com](mailto:terri.rushing@baesystems.com)

Business Size: Large Business

**Supplement No. 2 dated October 31, 2005**

## CUSTOMER INFORMATION

### 1a. Special Item Numbers (SINs)

The SINs listed below are covered by this price list. Labor rates for services provided under these SINs are located in Attachment 1. Attachment 2 contains BAE SYSTEMS' labor category descriptions.

#### **899-1 Environmental Planning Services & Documentation**

The examples listed below are examples of services provided under this SIN. These are examples only and are not meant to exclude or limit any authentic environmental service under this Federal Supply Schedule. These examples may include but is not limited to the following:

- **Environmental Impact Statements & Assessments under the National Environmental Policy Act to include:**
  - Data identification
  - Data Collection (including site visits and interviews)
  - Data Development
  - Data Interpretation
  - Sampling and Analysis
  - Preparation of human health risk reports
  - Preparation of environmental impact evaluations and reports
  - Preparation of expert testimony, and preparation of material for and attendance at public meetings and public hearings (including scoping meetings)
  - May include National Surveys (i.e. assisting federal agencies in planning and conducting national assessments of wastewater and sludge (biosolids))
- **Endangered Species, Wetlands, Watersheds and other Natural Resource management Plans, Studies and Consultations to include:**
  - Review any existing reports and management plans
  - Coordinate with U.S. Fish & Wildlife Service
  - Contact appropriate state office for information
  - Perform surveys
  - Data collection and prepare reports / maps using the results of the data collection
- **Archeological, Historic and other Cultural Resources Management Plans, Studies, and Consultations to include:**
  - Conduct resource surveys / studies
  - Evaluate resource data
  - Prepare appropriate nominations / reports
  - Prepare Management Plans
- **Economic, Technical, and Risk Analyses in Support of Environmental Needs to include:**

- Conduct analyses of options under consideration for environmental actions.
- Perform data collection
- Data development
- Analyses of comments
- Regulatory and economic analyses
- Feasibility analyses
- Hazard assessments
- Exposure assessments
- Risk analyses

## **899-2 Environmental Compliance Services**

The examples listed below are examples of services provided under this SIN. These are examples only and are not meant to exclude or limit any authentic environmental service under this Federal Supply Schedule. These examples may include but is not limited to the following:

- **Environmental Compliance Audits to include:**
  - Determine all applicable public law and statutes, agency and command regulations/directive, and other Federal, state and local regulations and apply as required to conduct audit.
  - Evaluate findings and prepare necessary documentation/reports.
  - Conduct complete out-brief
- **Compliance Management Planning to include:**
  - Develop Management Plans that will cover policy, planning, implementation and operation; checking and corrective action; and management review
- **Pollution Prevention Surveys**
  - Conduct pollution prevention surveys
  - Develop pollution prevention plans
  - Establish inventories for hazardous materials
  - Evaluate the economics and technical feasibility of process changes and recycling alternatives
  - Create databases to track progress in achieving pollution prevention goal

## **899-4 Waste Management Services:**

The examples listed below are examples of services provided under this SIN. These are examples only and are not meant to exclude or limit any authentic environmental service under this Federal Supply Schedule. These examples may include but is not limited to the following:

- Conduct analyses of options under consideration for Waste Management Services
- Perform activities such as data collection, data development, analyses of comments, regulatory and economic analyses, feasibility analyses, hazard assessments, exposure assessments and risk analyses.
- Services include but are not limited to:
  - Development of waste characterization studies and recommendations for management strategy, including identification of recycling options.
- Assessments might include :
  - Studies relating to collection and transfer of waste
  - Source reduction
  - Evaluation of energy / fuel options
- Services could include:
  - Data collection
  - Data development
  - Analyses of comments
  - Regulatory and economic analyses
  - Feasibility analyses
  - Hazard assessments
  - Exposure assessments
  - Risk analyses

**1b. Lowest Priced Model Number - Not Applicable**

**2. Maximum Order - \$1,000,000 - \$5,000,000** (the maximum order will be negotiated to one of the levels shown for each Special Item Number, depending on the concessions offered).

**3. Minimum Order - \$100.00**

**4. Geographic Coverage (delivery area) – Domestic only** which includes the 48 contiguous states, Alaska, Hawaii, Puerto Rico, and Washington DC

**5. Point(s) of Production**

Services under this contract can be provided at Government or contractor sites. Locations are listed below:

<b>Location</b>	<b>Address</b>
Huntsville, AL	308 Voyager Way, Huntsville, AL 35806 310 Voyager Way, Huntsville, AL 35806
Arlington, VA	Century Two, 2461 South Clark Street, Suite 706, Arlington, VA 22202
Colorado Springs, CO	770 Wooten Rd, Suite 101, Colorado Springs, Co 80915
Dallas, TX	4319 Greenwood Lane, Grapevine, TX 76051
Stevenson, WA	40 S.E. Cascade Ave, Stevenson, WA 98648
Warner Robins AFB, GA Office	1100 Park Drive, Warner Robins AFB, GA 31088

- 6. Discount from List Prices** – Prices shown herein for the corporate and customer site rates are net (discount deducted).
- 7. Quantity discounts** – Additional discounts may be negotiated for individual orders and for Blanket Purchase Agreements (BPAs). These discounts will be addressed on a case-by-case basis.
- 8. Prompt payment terms** – Payment terms are net 30 days.
- 9a. Government Purchase Cards – at or below micro-purchase threshold**  
Government purchase cards are accepted for any dollar value.
- 9b. Government Purchase Cards – above micro-purchase threshold**  
Government purchase cards are accepted for any dollar value.
- 10. Foreign Items** - Not Applicable
- 11a. Time of Delivery** - Per Individual Task Order
- 11b. Expedited delivery** – Not Applicable

- 11c. Overnight and two-day delivery** – Not Applicable
- 11d. Urgent requirements** - Pursuant to I-FSS-140-B, Urgent Requirements, when the FSS contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, the agency may contact the BAE SYSTEMS Contract Administrator (see page 1) for the purpose of obtaining accelerated delivery. MEVATEC will offer an accelerated delivery date if possible to the ordering agency in accordance with all other terms and conditions of the contract.
- 12. F.O.B. Point(s)** – Destination
- 13a. Ordering Address** - All orders under this contract should be placed with the BAE SYSTEMS Analytical Solutions Inc. Contracts Department at the address below:

**BAE SYSTEMS Analytical Solutions Inc.**  
308 Voyager Way  
Huntsville AL 35806  
ATTN: Contracts Department

Orders may also be placed by telephone, fax, or email to the following numbers.

**Phone:** (256) 890-8098 (direct dial to the Contracts Department) or  
(256) 890-8000 (main switchboard)

**FAX:** (256) 890-0000

**Email:** gsa.huntsville@baesystems.com

- 13b. Ordering Procedures** – For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) and a sample BPA can be found at the GSA/FSS Schedule homepage ([fss.gsa.gov/schedules](http://fss.gsa.gov/schedules)).

- 14. Payment Address**  
Remittance by check should be delivered to:

**BAE SYSTEMS Analytical Solutions Inc.**  
308 Voyager Way  
Huntsville AL 35806  
ATTN: Accounts Receivable

Payment may also be made by electronic funds transfer to Compass Bank, Transit Number 062001186, Account Number 07617100.

- 15. Warranty Provision** - Not Applicable

- 16. **Export Packing Charges - Not Applicable**
- 17. **Terms and Conditions of Government Purchase Card Acceptance (Orders above the Micro purchase Level)** – The rates included in this contract do not include credit card processing fees for orders above the micro purchase threshold. Processing fees may be waived on a case-by-case basis.
- 18. **Terms and Conditions of Rental, Maintenance, and Repair - Not Applicable**
- 19. **Terms and Conditions of Installation - Not Applicable**
- 20. **Terms and Conditions of Repair Parts - Not Applicable**
- 20a. **Terms and Conditions for Other Services - Not Applicable**
- 21. **List of Service and Distribution Points**

<b>Location</b>	<b>Address/Phone Number</b>

## Attachment 2: Labor Category Descriptions

Labor Category Title	Degree (1)	Years Exp (2)	Category Description
Program/Task Leader	MS - Science or Engineering	10	Directs, plans, organizes, and controls the project to ensure that all contractual obligations are fulfilled in an effective and timely manner. Must be able to manage multiple concurrent task and projects, serve as point of contact with the customer, formulate and enforce work standards, develop schedules, review work discrepancies and communicate policies, purposes and goals of the organization, and manage and control funds and resources. Must have experience in Environmental Services.
Administrative Support	High School Diploma +	3	Performs diverse administrative duties. Initiates special reports, composes routine correspondence, and compiles statistical and budget information. Must be able to communicate with all levels of company personnel to gather and convey information.
Principal Investigator	BS - Science or Engineering	12	Responsible for lead investigations related to environmental, hydrological, geological, ecological, and/or hazardous waste studies. Guides and supervises subordinate scientists, engineers, analysts, and technicians in these investigations. Develops technical scopes, plan schedules and estimate costs. This position requires individuals regarded as subject matter experts in their field(s) of service.
Investigator	BS - Science or Engineering	10	Responsible for investigations related to environmental, hydrological, geological, ecological, and/or hazardous waste studies. Guides and supervises subordinate scientists, engineers, analysts, and technicians in these investigations. Develops technical scopes, plan schedules and estimate costs. This position requires individuals regarded as subject matter experts in their field(s) of service.
Sr Biologist	BS - Biology or related science *	5	Develops, directs, and guides research efforts and prepares reports of studies on vegetation, avian, mammalian, herpetological and invertebrate populations. Coordinates with state and federal officials as appropriate and complies with state and federal regulations as required. Guides and supervises subordinate biologists and temporary field workers, and provides quality control on all final reports. Develops technical scopes, plan schedules and estimate costs.
Staff Biologist	BS - Biology or related science *	2	Carries out field studies on vegetation, avian, mammalian, herpetological, and invertebrate populations. Identifies plants and animals, develops of methods, develops and uses field data sheets, keeps detailed records, and assists in report preparation.
Sr Environmental Scientist	BS - Science or Engineering *	8	Plans and leads staff in performing environmental investigations. This shall include but is not limited to data collection and modeling for site investigations. Directs the design, development and application of cleanup technologies. May develop Health and Safety plans and/or conduct lead-based paint risk assessments and asbestos abatement studies. Develops technical scopes, plan schedules and estimates costs.
Environmental Scientist/Analyst	BS - Science or Engineering *	4	Performs environmental investigations. This shall include but is not limited to data collection and modeling for site investigations, and the design, development and application of cleanup technologies. May develop Health and Safety plans and/or conduct lead-based paint risk assessments and asbestos abatement studies. Develops technical scopes, plan schedules and estimate costs.
Sr Geologist	BS - Geology or related science *	5	Plans and leads staff in conducting groundwater sampling of monitoring wells. Analyzes land and geological formations. Develops technical scopes, plans schedules and estimates cost. Conducts other analysis and test as necessary.

**Attachment 2: Labor Category Descriptions  
(Continued)**

Labor Category Title	Degree (1)	Years Exp (2)	Category Description
Staff Geologist	BS - Geology or related science *	2	Supports in conducting numerous related hydrological and geological tasks. Supports in sampling data collection and analysis. Analyzes land and geological formations. Help develop technical scopes, plan schedules and estimates costs. Must have familiarity of GIS modeling software.
Sr Engineer/Analyst	BS - Engineering or related field *	8	This individual plans, schedules, conducts or coordinates detailed phases of the engineering or scientific work in a project or performs work that involves conventional engineering or scientific practice. The work may include a variety of complex features such as conflicting design requirements and difficult coordination requirements.
Staff Engineer/Analyst	BS - Engineering or related field *	3	This individual plans, schedules, conducts or coordinates detailed phases of the engineering or scientific work in a project or performs work that involves conventional engineering or scientific practice. The work may include a variety of complex features such as conflicting design requirements and difficult coordination requirements.
Archaeologist	BS - Anthropology, B24 Archaeology or related science *	4	Conducts surveys and reconnaissance, archaeological site testing, data recovery by excavation, and architectural recordings, archival researches and archaeological, ethno historical and historical studies following established professional guidelines (AR 420-20). Develops technical scopes, plan schedules and estimate costs.
Database/GIS Specialist	BS - Geography, Computer Science, MIS, IT, or Engineering *	4	Performs all database and GIS work in both the development and/or operational modes. Required to design, develop and/or implement databases with respect to access methods, access time, and device allocation. Will maintain database files and accomplish monitoring of standards and procedures.
Programmer	BS - Engineering, MIS, IT, or Computer Science *	2	Required to design, develop and/or implement databases with respect to access methods, access time, and device allocation. Will maintain database files and accomplish monitoring of standards and procedures.
Economist/Cost Analyst	BS - Economics, Management, Financing, Accounting or related field *	3	Must have experience in economics, cost analysis and/or financial management with demonstrated ability in analyzing, designing, and developing automated applications for unique business practices. Must be able to work with functional specialists, automation specialists contractors, vendors, and customer to effectively incorporate the customer's requirements into an economic analysis tool or model.
Regulatory Specialist	BS - Science or Engineering	3	Must have knowledge of Environmental Protection Agency (EPA), state and Department of Defense regulations. Experience includes hazardous waste management and training, personnel hazardous material exposure and protection, technical evaluation, remediation, plans and proposals. Assists staff members in performing feasibility studies, chemical risk assessments, groundwater contamination studies, and hazardous materials management. Conducts analysis and tests as necessary.
Air Quality Engineer/Analyst	BS - Science, Engineering or Management *	4	Supports preparation and updates of Title V Air Permit Applications. Performs quarterly inspections of air emissions sources. Prepares air quality pollution prevention plans. Quantify and Qualify all HAPS. Responds to notices of deficiencies on permit applications. Assists in research and development of databases to manage releases in accordance with EPCRA. Conducts analysis and tests as necessary.

**Attachment 2: Labor Category Descriptions  
(Continued)**

Labor Category Title	Degree (1)	Years Exp (2)	Category Description
Land Use Specialist	BS - Geography or Urban or Land Use Planning *	2	Analyzes the three mission goals for installation support: to promote the most efficient and cost-effective land use plan dealing with facility location to plan and coordinate development to ensure compatible land use for future growth and change; and to enhance and preserve the visual, aesthetic, and natural resources. Reviews and analyzes existing and future research, development, and test and evaluation missions. This analysis includes facilities and equipment used, structural building, improvement, and scheduled demolition, and an assessment of the effects of future projects as required by individual proponent specifications.
Hazardous Waste Management Specialist	BS - Science or Engineering *	4	Performs ground water and other remediation tasks. Directs staff in performing office and field activities to include installation and operation of pump and treat systems, review and evaluation of remediation system designs, database development, operating Global Positioning Satellite equipment, performing field inspections, monitoring well installation and developing, collecting field water samples, and performing asbestos sampling. Provides hazardous waste oversight management and performs radiation monitoring. Conducts other analysis and tests as necessary.
Sr Technician	High School Diploma +	4	Provides technical support to the engineers/scientists/analysts working in such areas as research design, development, monitoring or testing. Works from schematics diagrams, written and verbal descriptions or directions or defined plans to perform testing and troubleshooting functions of various processes and functions. Conducts engineering tests and detailed experimental testing to collect design data or assist in research work.
Technician	High School Diploma +	2	Assist in providing technical support to the engineers/scientists/analysts/Sr. Technicians working in such areas as research design, development, monitoring or testing. Works from schematics diagrams, written and verbal descriptions or directions or defined plans to perform testing and troubleshooting functions of various processes and functions. Conducts engineering tests and detailed experimental testing to collect design data or assist in research work.
